### **7. Wedding unplugged: A digital-free wedding at Palm Island Resort Grenadines**

How about a destination wedding with no cell phones and no laptops? Palm Island Grenadines is a private island that sets its own rules of etiquette, which means no cell phones or laptops on any of the resort's five white sand beaches. And there are no telephones or television sets in the guestrooms, either. It truly is a time to connect with that special someone you're about to marry. Various wedding packages are

available at the Palm Island Resort, which include videos of the wedding, photography, beauty treatments, hors d'oeuvres, private dinners, additional champagne, and even a steel band!
